

# Parts List

Only a very very small percentage of all patent documents come with a parts list as it is not required. PatentSlice.com parses every document you requested for a parts list to help you identify parts quickly

The screenshot shows a web browser window with the URL <https://patentslice.com/analyze-patent>. The website header includes the 'PATENT SLICE' logo and 'Upgrade | Logout' links. A navigation menu on the left contains the following items: Specification, Parts List (highlighted), Enhanced Parts List, Claims, Claim Tree, Drawings, and Figures. Below the menu, there are two links: [Download Parts List PDF](#) and [Download Complete Report](#). The main content area is titled 'PARTS LIST' and contains the following text:

- Part 2 is FIGS. 1,
- Part 4 is agitating means
- Part 7 is first
- Part 8 is suction means
- Part 9 is second end
